

Alignments of PSAT/NMSQT Skill Categories and State Standards

PSAT/NMSQT Skill Category and Description of Skills	Missouri ELA: Grade and Course Level Expectations 2007		
	Course/ Level	Standard	Standard ID
<b>Author's Craft</b> Understand how authors use tone, style and writing devices such as metaphor or symbolism.	English II	d. Identify and, explain literary techniques, in text emphasizing analogy and	R.2.B.d
	English II	d. Use details from text(s) to identify and analyze tone	R.2.C.d
	English II	e. Use details from informational and persuasive text(s) to evaluate effect of tone on the overall meaning of work	R.3.C.e
	English II	f. Use details from informational and persuasive text(s) to analyze and evaluate point of view	R.3.C.f
	English II	g. Use details from informational and persuasive text(s) to analyze and evaluate author's viewpoint/perspective	R.3.C.g
	English III	b. Identify and explain literary techniques, in text emphasizing satire	R.2.B.b
	English III	d. Use details from text(s) to evaluate the effect of tone on the overall meaning of work	R.2.C.d
	English III	b. Identify, explain, and analyze literary techniques in non-fiction, emphasizing satire	R.3.B.b
	English III	f. Use details from argumentative text(s) to evaluate effect of tone on the overall meaning of work	R.3.C.f
	English III	g. Use details from argumentative text(s) to analyze and evaluate point of view	R.3.C.g
English III	h. Use details from argumentative text(s) to analyze and evaluate author's viewpoint/perspective	R.3.C.h	
<b>Determining the Meaning of Words</b> Use vocabulary skills, context, roots, prefixes and suffixes to determine the meaning of words.	English II	a. During reading, utilize strategies to determine meaning of unknown words	R.1.G.a
	English III	a. During reading, utilize strategies to determine meaning of unknown words	R.1.G.a
<b>Manage Grammatical Structures Used to Modify or Compare</b> Understand correct use of adjectives and adverbs, comparative structures (such as <i>neither</i> and <i>nor</i> ) and phrases used to modify or compare.	English II	c. In written text apply standard usage	W.2.E.c

<b>Reasoning and Inferencing</b> Understand assumptions, suggestions and implications in reading passages and draw informed conclusions.	English II	d. During reading, utilize strategies to infer	R.1.G.d
	English II	g. During reading, utilize strategies to summarize	R.1.G.g
	English II	a. Compare, contrast, analyze and evaluate connections: text to text (information and relationships in various fiction and non-fiction works)	R.1.I.a
	English III	d. During reading, utilize strategies to infer	R.1.G.d
	English III	g. During reading, utilize strategies to summarize	R.1.G.g
	English III	a. Compare, contrast, analyze and evaluate connections: text to text (information and relationships in various fiction and non-fiction works)	R.1.I.a
<b>Understanding Literary Elements</b> Understand literary elements such as plot, setting and characterization.	English II	b. Use details from text(s) to analyze character, plot, setting, point of view	R.2.C.b
	English III	b. Use details from text(s) to analyze character, plot, setting, point of view	R.2.C.b

# PSAT/NMSQT Skills Insight™ Alignment to State Standards

## Executive Summary, July 2010

### Purpose

PSAT/NMSQT *Skills Insight*™ is a free online tool designed to help students and educators gain a better understanding of how PSAT/NMSQT® scores relate to specific academic skills. It provides a description of the academic skills that are typical of students scoring at each score band, suggestions for improvement, and practice test questions. Learn more by visiting [www.collegeboard.com/psatskills](http://www.collegeboard.com/psatskills).

The information provided by PSAT/NMSQT *Skills Insight* is organized by skill category. There are five skill categories for the critical reading section, nine for the mathematics section (4 content skill categories; 5 process skill categories), and 5 for the writing skills section. This report shows the alignment between state standards in English Language Arts and Mathematics and the content and skills measured by the PSAT/NMSQT.

### Using Alignment Results with PSAT/NMSQT Reports

Schools and districts that administer the PSAT/NMSQT have access to the *Summary of Answers and Skills* (SOAS) report<sup>1</sup>. SOAS reports summarize performance on test sections, skill categories, and individual test questions, and compare local results to the state or nation. Using SOAS and the alignment information provided in this report, schools and districts can develop remediation strategies to help students improve their college readiness skills, future SAT scores, and performance on state assessments.

### Mathematics: Alignment Approach and Findings

- There are nine Skills Categories in Mathematics, representing both content and process skills: *Number and Operations; Algebra and Functions; Geometry and Measurement; Data, Statistics and Probability; Problem Solving; Representation; Reasoning; Connections and Communication*.
- Only standards for grades 9-12 were considered for these alignments. Within grades 9-12, the areas with the greatest concentration of alignments are the Number and Operations, Algebra and Geometry strands of the state standards. In most cases, Precalculus and Trigonometry were excluded from the alignment study.
- The organization and hierarchy of standards varies on a state-by-state basis. During the alignment process, the College Board aligned the PSAT/NMSQT skills to the most specific level of the state's standards.
- States often integrate process and content standards. In such cases, the state standard received an alignment to both a process skill category and a content skill category.
- Generally, there is strong correspondence between the PSAT/NMSQT Skills Categories in Mathematics and state standards. Coverage of the Skills Categories across a state standards document is dependent upon the specific state standards and on the degree of specificity of language employed within the standards.
- The PSAT/NMSQT is administered to students in grades 10 and 11; consequently, the strongest areas of alignment are in the content categories of *Number and Operations, Algebra and Functions* and *Geometry and Measurement* and in the process categories of *Problem Solving, Reasoning* and *Representations*. Considering the design and purpose of the PSAT/NMSQT, extensive alignments in upper levels of high school mathematics standards, including Trigonometry, are not intended or expected.

---

<sup>1</sup> Using the access code printed on the PSAT/NMSQT *Roster of Student Scores and Plans*, SOAS reports can be downloaded from [www.collegeboard.com/reports](http://www.collegeboard.com/reports) beginning in the first week of January.

- The College Board content specialists who conducted the alignments have a deep understanding of the PSAT/NMSQT test specifications. Therefore, although multiple Skills Categories might link to a particular standard, these alignments display only the strongest and most appropriate matches.

## English Language Arts: Alignment Approach and Findings

- Reading and Writing each have five PSAT/NMSQT Skills Categories. In Reading, the categories are *Determining the Meaning of Words*, *Author’s Craft*, *Reasoning and Inferencing*, *Organization and Ideas* and *Understanding Literary Elements*. In Writing, the categories are *Manage Word Choice and Grammatical Relationships Between Words*, *Manage Grammatical Structures Used to Modify or Compare*, *Manage Phrases and Clauses in a Sentence*; *Recognize Correctly Formed Sentences* and *Manage Order and Relationships of Sentences and Paragraphs*.
- The PSAT/NMSQT is administered to students in grades 10 and 11, and the College Board targeted the English Language Arts alignments at these specific grade levels. In states where the standards are organized by grade band (grades 9-10, 11-12) or by one high school band (grades 9-12), the College Board aligned to all high school grade levels.
- Given the purpose and design of the PSAT/NMSQT, the English Language Arts alignment is focused on the areas of reading and writing and does not include state standards in speaking, listening, or media literacy. Additionally, these alignments excluded genre-specific state standards (such as those related to American, British, or World literature), although the essential PSAT/NMSQT skills in Reading can be used to support instruction in literature.
- The organization and hierarchy of standards varies on a state-by-state basis. During the alignment process, the College Board aligned the PSAT/NMSQT skills to the most specific level of the state’s standards. Coverage of the Skills Categories across a state standards document is dependent upon the specific state standards and on the degree of specificity of language employed within the standards.
- In Writing, generally there is strong correspondence between the PSAT/NMSQT Skills Categories and state standards that focus on grammar, usage, language conventions, and the role of editing and revising in writing.
- In Reading, there is strong correspondence between the PSAT/NMSQT Skills Categories and state standards in the essential areas of vocabulary development (determine the meaning of unfamiliar words or of words with multiple meanings by understanding context and by analyzing roots, prefixes, and suffixes) and reading comprehension (determine the main idea and supporting details; understand the organization of passages; analyze the various elements of an author’s craft, including purpose, perspective, word choice, and use of rhetorical and literary devices and understand literary elements such as plot, characterization, and setting).

## Summary

In summary, the PSAT/NMSQT Skills Categories correspond well to state standards. Educators can use these alignments to connect the PSAT/NMSQT to their local curricula and state standards to monitor student learning and to build a coherent instructional plan for their students.
