

The College Board has developed two new tools for students and educators—SAT<sup>®</sup> Skills Insight<sup>™</sup> and My SAT Online Score Report. Both are designed to help students understand their SAT scores, prepare for the test, and connect to future academic success. Used together, these tools can help students get the most out of their scores and gain insight into the academic skills they need to do better in the classroom, on the test, and in college.

## SAT<sup>®</sup> SKILLS INSIGHT<sup>™</sup>

SAT Skills Insight is a free online tool that shows students, parents, and educators the skills that students know and highlights the ones they need to know better, including:

- Academic skills tested on the SAT
- Academic skills typical of students who score within a particular score band
- Suggestions for how to improve those skills
- Real SAT questions and answers that demonstrate the academic skills on the test

No other college entrance exam offers this type of student-focused tool with distinctive features such as real SAT questions and answers.

## MY SAT ONLINE SCORE REPORT

My SAT Online Score Report is a free online tool that gives students who take the SAT the meaning behind their numbers and insight into their strengths and weaknesses. It offers:

- Details of their performance by question type and difficulty level
- National, state, and high school percentiles
- Each student's essay question and scanned response
- Career and major searches

No other college entrance exam offers this much performance detail using such an intuitive and user-friendly design. A self-guided demo of the score report is available at [www.collegeboard.com](http://www.collegeboard.com).

## FAQ

### Q. How does SAT Skills Insight help students?

- A.** SAT Skills Insight helps students understand the academic skills that are tested on the SAT and motivates them to take the next steps to reach their desired score. This knowledge empowers them and boosts their test-day confidence. In addition, by offering real SAT questions and answers and study tips, it helps students identify which skills they need to improve upon to do better in school, on the SAT, and in college. The more knowledge students have about themselves, the more they'll understand what it will take to reach their goals.

### Q. How does SAT Skills Insight help educators and colleges?

- A.** SAT Skills Insight helps educators and colleges understand how students, as a group, are performing in specific academic skill areas. It also helps them identify the strengths and weaknesses typical of students in a given SAT score band, which will help them prepare their students for academic success. A printed version of SAT Skills Insight for educators that includes localized student performance data is being piloted now and will be sent to high schools in fall 2009.

### Q. How does My SAT Online Score Report help students?

- A.** This new tool will help students see the details behind their individual score, gain insight into college and career choices, and focus their preparation efforts for retesting.
