

Score Choice™

Designed to reduce student stress and improve the test-day experience, Score Choice™ is a new score-reporting feature that gives students the option to choose the SAT® scores by test date and SAT Subject Test scores by individual test that they send to colleges, in accordance with each institution's individual score-use practice. Score Choice is optional, and if students choose not to use it, all test scores will be sent automatically.

Different colleges use test scores in different ways, and a "one size fits all" approach to college admissions does not reflect the diverse needs of colleges and universities. The College Board enables participating colleges to display their SAT score-use practices directly to students on collegeboard.com. This information is presented at the time that students are asked to send scores.

Students are encouraged to follow the score-reporting requirements of each college to which they apply, but their scores are not released for admissions purposes without their specific consent. Colleges and universities only receive the scores that students send them.

Fast facts

- Students can select which scores they send to colleges by test date for the SAT and by individual test for SAT Subject Tests™.
- Scores from an entire SAT test can be sent — scores of individual sections from different test dates cannot be selected independently for sending.
- Students can send any or all scores to a college on a single report — it does not cost more to send one, multiple or all test scores.
- Students are instructed to follow the different score-use practice for each college to which they apply.
- Score Choice is optional — if students do not use it, all scores will be sent automatically.
- Score Choice can be used on any score report that students send: the four score reports available through online or phone registration (applying to already scored tests) and additional score reports.
- Score Choice functionality is available to all students via the Web or by calling Customer Service toll free (within the United States).

About free score reports

Students receive four free score reports with their SAT registration fee. The College Board continues to recommend that students take full advantage of the four free score reports included with their registration.

These score reports are meant to encourage immediate and early reporting of scores to colleges.

The College Board processes scores for each SAT as quickly as possible after the test date. Scores are simultaneously sent to students, colleges, universities and scholarship programs. Improvements in our overall score reporting process have successfully reduced the turnaround time for additional score reports.
