With an ever-evolving suite of integrated financial aid management solutions, no other organization is better positioned to help your institution develop equitable, effective and efficient financial aid policies and processes.

Integration helps you meet your awarding and enrollment objectives. Solutions integrate based on the progression of data in the financial aid life cycle.

When students submit their PROFILE application, a request to submit an IDOC report is automatically generated. As students send their IDOC packets, the data are key entered by the College Board and can be uploaded directly to PowerFAIDS. With IDOC tax data uploaded to PowerFAIDS, office staff can verify data quickly and then easily communicate with students.

We've Been There Since the Beginning

Today, many of the concepts and methodologies developed for the first time by the College Board's College Scholarship Service (CSS) and its members in 1954 are still being used to determine each family's expected contribution toward college costs and each student's need for financial aid. As a result, the College Board remains a powerful force in the development of economically sound financial aid policy and a key resource on all college cost and financing issues.

1954: CSS develops the first national need-analysis methodology and form.
1975: CSS sponsors the first conference on Data Processing in Financial Aid.
1983: MICRO-FAIDS, the precursor to PowerFAIDS, is released.
1992: Institutional Methodology (IM) is introduced.
1995: CSS/Financial Aid PROFILE® is introduced as a stand-alone application for aid. Also this year, PowerFAIDS succeeds MICRO-FAIDS.
2000: IDOC is introduced.
2003: Net Partner for PowerFAIDS is introduced.
2003: Microsoft .NET version of PowerFAIDS is introduced.
2006: PROFILE becomes an online, adaptive application.
2008: Net Partner introduces the ability for students to accept and decline their awards online, eliminating the need for paper award letters.
2009: PROFILE goes global by adapting the application so it can be used by international students.

Backed by best-practices consulting and training, independent research, experienced field staff, and insights from nearly 4,000 College Board member institutions and advisory groups, our offerings provide you with more value and support than any other education organization.

For more information on our financial aid solutions, please contact us at 800-927-4302 or enrollmentsolutions@collegeboard.org.

The College Board’s College Scholarship Service® (CSS®) pioneered need-based financial aid concepts and methodologies more than five decades ago. Today, our suite of financial aid solutions helps you distribute resources in line with your institutional mission and priorities. Our solutions help you achieve the desired mix of enrolling students while supporting equity and providing a high level of service.

“We wanted a method to redistribute the financial aid funds available and direct them to the most deserving students. For us, it was not about saving money but about spending money as fairly as possible.”

— Pam Fowler, Financial Aid Director, University of Michigan

— Pam Fowler, Financial Aid Director, University of Michigan
Financial Aid PROFILE® provides you with the tools you need to manage financial aid accurately and award student aid on a calendar year basis. Do you need a way to ensure equity and accuracy in awarding institutional aid among your international students? Just as with domestic students, the PROFILE application can collect family income and asset information from foreign students. By requiring your international students to complete the PROFILE, you can get a comprehensive and reliable picture of each family's financial strength.

- Fee waiver available — granted automatically
- Our early calendar spreads out your workload
- The Institutional Methodology family contribution calculations help you avoid institutional aid
- Student complete and review the application using their own country's currency; submitted data are delivered to you in U.S. dollars
- Students can complete the application online. EducationUSA Advising Centers, which are located around the world, are available to provide assistance.
- Question text is customized for international applicants, providing them with a tailored experience.

“If the CSS/PROFILE gives us a more complete picture of the financial situation than does the FAFSA, this tool helps us to identify truly low-income students who qualify for the Carolina Covenant, a program that provides a debt-free education to students from low-income backgrounds.”
— Shirley A. Ort, Associate Provost and Director of Scholarships and Student Aid, University of North Carolina at Chapel Hill

Institutional Documentation
Collect financial data from foreign students so that you can measure need and accurately distribute your institutional aid.

Institutional Documentation Service (IDOC)
Free your office and staff from the burden of paper with this unique service.

Is your office overwhelmed by paper tax documents? The Institutional Documentation Service (IDOC) can take your office to the next level of efficiency and allow you to staff more efficiently on counseling students. IDOC saves you time and money by collecting documents from applicants on your behalf. It provides the images of the documents on our secure Web site and transmits the key-entered data from the tax return directly to you for fast and effective verification.

- IDOC can take your office to the next level of efficiency and allow you to staff more efficiently on counseling students.
- IDOC saves you time and money by collecting documents from applicants on your behalf.
- It provides the images of the documents on our secure Web site and transmits the key-entered data from the tax return directly to you for fast and effective verification.

“With IDOC, our staff time has decreased through greater efficiency. We credit IDOC with helping our office move to the next level of service and institutional aid objectives and given staff the information and tools they need to provide greater service to their applicants. PowerFAIDS can be tailored to the needs of any financial aid office, no matter what size or structure.”
— Gary Weaver, Associate Director of Student Aid, Bowdoin College

PowerFAIDS®
Manage your financial aid office with this user-friendly software program.

Do you need a way to maximize efficiency in managing financial aid office? PowerFAIDS® is an all-comprehensive financial aid management software that helps over 1000 institutions. For the past ten years, PowerFAIDS has helped institutions reach their students and given them the information and tools they need to provide greater service to their applicants. PowerFAIDS can be tailored to the needs of any financial aid office, no matter what size or structure.

- Run unlimited packaging simulations using sophisticated algorithms as you can implement effective institutional aid policies.
- Instantly compute Federal Methodology (FM) and Institutional Methodology (IM) need analyses, including tuition recalculations.
- Manage complex award processes and create new periods of enrollment and aid eligibility.
- Enhance and automate your communication with students and parents, including the ability to e-mail (individually, group, or bulk) directly from PowerFAIDS.
- User Report Wizard enables you to run more than 50 preprogrammed reports, including the FAFSA and Common Data Set Reports, and build and schedule your own custom reports.
- Support for PROFILE and IDOC is built into PowerFAIDS, making it easy for PowerFAIDS users to adapt these tools.

“Given the constantly changing landscape of financial aid, PowerFAIDS is a software solution that can help our institution stay in the forefront of institutional aid management. We love it!”
— Pat Couch, Director of Financial Aid, Springfield College

PowerFAIDS Net Partner
Would you like to provide your students with round-the-clock customer service? Net Partner is an online, self-service portal that keeps your students connected 24/7, 365 days a year. With Net Partner, you can customize the student interface, including all text and graphics, to reflect your institution’s branding.

Is your office overwhelmed by paper tax documents? PowerFAIDS can be tailored to the needs of any financial aid office, no matter what size or structure.”
— Gary Weaver, Associate Director of Student Aid, Bowdoin College

PowerFAIDS Web Client
Could your institution be more effective if other staff had access to student aid data? The PowerFAIDS Web Client module allows staff in other offices on campus to have access to key student data in PowerFAIDS using a Web browser. By using the tool, you can enable your colleagues to review financial aid information themselves, reducing phone calls and walk-ins to the aid office. With the Web Client, you will effectively extend service without additional software installation or other workarounds.

Using Net Partner, students can complete an online application that you have created, view their financial aid information from multiple years, and download documents they need to complete the financial aid process, and more.

Net Partner enables you to:
- Easily collect data and process documents
- View applicant status
- Improve data accuracy as you collect supplemental financial aid application information
- Move students' answers directly into the PowerFAIDS databases
- Reduce printing, postage and data entry costs

“I love it! It moves students' answers directly into the financial aid process, and more.”
— Gary Weaver, Associate Director of Student Aid, Bowdoin College

CSS/Financial Aid PROFILE®

PROFILE Adapted for International Students

Collect financial data from foreign students so that you can measure need for and equitably distribute your international aid.

Do you have all of the information you need to fairly and accurately award aid on a calendar year basis? For your students who are international? Just as with domestic students, the PROFILE application can collect family income and asset information from foreign students. By requiring your international students to complete the PROFILE, you can gain a more comprehensive and reliable picture of each family's financial strength.

Students can complete and review the application using their own country’s currency; submitted data are delivered to you in U.S. dollars.

Students can complete the application online. EducationUSA Advising Centers, which are housed around the world, are available to provide assistance.

Question text is customized for international applicants, providing them with a tailored experience.

“CSS PROFILE gives us a more complete picture of the family’s financial situation than does the FAFSA.

— Shirley A. Ort, Associate Provost and Director of Scholarships and Student Aid, University of North Carolina at Chapel Hill

Institutional Documentation Service (IDOC)

Free your office and staff from the burden of paperwork with this unique service.

Is your office overwhelmed by paper tax documents? The Institutional Documentation Service (IDOC) can take your office to the next level of efficiency and allow you and your staff to focus more energy on counseling students.

IDOC saves you time and money by collecting documents from applicants on your behalf. It provides the images of the documents on your secure Web site and transmits the key-entered data from the tax return directly to you for fast and effective verification.

The key-entered data are available to you within 72 hours of receipt at our processing center, allowing for a more streamlined verification process and more accurate awarding.

Our accuracy rate for key-entered data exceeds 99 percent, which results in effective file verification for you.

Students submit their documents online, and the images and data are available for participating IDOC schools, simplifying the aid application process for the family.

Processing backlogs, unopened mail and lost files are things of the past. The information you need to award aid is always at your fingertips on our secure Web site.

With IDOC, our staff time has decreased through greater efficiency. We credit IDOC with helping students and families provide the right information, on deadline, and in a single, complete package.

— Bill Wells, Director of Financial Aid, Wake Forest University

PowerFAIDS®

Manage your financial aid office with this user-friendly software program.

Do you need a way to maximize efficiency in your financial aid office? PowerFAIDS® is an all-comprehensive financial aid management environment built by nearly 100 institutions. For 15 years, PowerFAIDS has helped institutions reach new heights and gain confidence in their financial aid offices.

PowerFAIDS can be tailored to the needs of any financial aid office, no matter what size or how unusual.

- Run unlimited packaging simulations using sophisticated algorithms as you implement effective institutional aid policies.
- Instantly compute Federal Methodology (FM) and Institutional Methodology (IM) need analysis, including tuition reductions.
- Manage complex awarding patterns and create new periods of enrollment on demand.
- Enhance and automate your communication with students and parents, including the ability to e-mail (individually, group or bulk) directly from PowerFAIDS.
- Use Report Writer (web-based tool) to run more than 50 preprogrammed reports, including the FISAP and Common Data Set Reports, or build and schedule your own custom reports.
- Support for PROFILE and IDOC is built into PowerFAIDS, making it easy for PowerFAIDS users to adopt these tools.

“Given the constantly changing landscape of financial aid, PowerFAIDS is a software solution that can keep up with the field. PowerFAIDS is such a product. Our only business is financial aid, and I need that level of dedication. PowerFAIDS delivers for us.”

— Ed Ciosek, Director of Financial Aid, Springfield College

PowerFAIDS Web Portals

Use the Internet to expand the reach of PowerFAIDS.

PowerFAIDS® Net Partner

Would you like to provide your students with round-the-clock customer service? Net Partner is an online, self-service portal that keeps your students connected 24/7, 365 days a year. With Net Partner, you can customize the student interface, including all text and graphics, to reflect your institution’s branding.

Net Partner enables you to:

- Easily collect data and process award acceptances.
- Improve data accuracy as your online supplemental financial aid application moves students’ answers directly into the PowerFAIDS database.
- Reduce printing, postage and data entry costs.

“Your parents and students benefit from anytime, all-time access to everything you need in one convenient location. Net Partner is easy to install and easy to maintain. We love it!”

— Gary Messenger, Associate Director of Student Aid, Bowdoin College

PowerFAIDS Web Client

Could your institution be more effective if other staff had access to student aid data? The PowerFAIDS Web Client module allows staff in other offices on campus to have access to key student data in PowerFAIDS using a Web browser. By using this tool, you can enable your colleagues to review financial aid information themselves, reducing phone calls and walk-ins to the aid office. With Web Client, you will effectively extend service without additional software installation or on other workstations.

Powerful Support

The College Board’s Institutional Need-Analysis Software (RAS) is not only a core PowerFAIDS® functionality, but it also serves as a campus-wide core component. RAS provides fast, accurate and consistent need-analysis results for both federal and institutional financial aid applications. Additionally, PROFILE® is easily mapped to RAS for streamlined processing.

“The CSS/PROFILE gives us a more complete picture of the family’s financial situation than does the FAFSA. This refined look helps us as we identify truly low-income students who qualify for the Carolina Covenant, a program that provides a debt-free education to students from low-income backgrounds.”

— Shirley A. St. John, Associate Provost and Director of Scholarships and Student Aid, University of North Carolina at Chapel Hill

Financial Aid PROFILE®

PROFILE Adapted for International Students

Collect financial data from foreign students so that you can measure data, need for and equitably distribute your institutional aid.

Do you have all of the information you need to fairly and accurately assess students on a timeline that supports your institution’s enrollment goals? Available for students to complete online, CSS Financial Aid PROFILE® provides you with the information you need to make sensitive financial aid decisions.

• PROFILE supports easy communication with families about college affordability, making early-enrollment estimates possible.
• The Institutional Methodology family contribution calculation helps you assess institutional aid and estimate Federal methodology.
• Our early calendar spreads out your workload—allowing for a more streamlined verification process.
• Images and data are delivered to you in U.S. dollars.
• Students complete the application online.
• Images and data are available to you within 72 hours of receipt at our processing center, allowing for a more streamlined verification process and more accurate awarding.
• QUESTION is customized for international applicants, providing them with a familiar experience.

Free your office and staff from the burden of paper with this unique service.

Is your office overwhelmed by paper tax documents? The Institutional Documentation Service (IODC) can take your office to the next level of efficiency and allow you and your staff to focus more energy on counseling students.

PowerFAIDS®

Manage your financial aid office with this user-friendly software program.

Do you need a way to maximize efficiency in your financial aid office? PowerFAIDS® is an all-encompassing financial aid management system that boasts nearly 2,000 institutions. For 15 years, PowerFAIDS has helped institutions reach peak efficiency and given quick access to data and tools they need to provide better service to armor students. PowerFAIDS can be tailored to the needs of any financial aid office, no matter what size or how unusual.

• Run unlimited packaging simulations using sophisticated algorithms so you can implement effective institutional aid policies.
• Instantly compute Federal Methodology (FM) and Institutional Methodology (IM) need analyses, including tuition recalculations.
• Manage complex enrollment patterns and create new periods of enrollment on demand.
• Enhance and automate your communication with students and parents, including the ability to e-mail (individually, group or bulk) directly from PowerFAIDS.
• Improve data accuracy as you online supplemental financial aid application moves students’ answers directly into the PowerFAIDS database.
• Reduce printing, postage and data entry costs.

“Your parents and students benefit from anytime, all-time access to everything they need in one convenient location. Net Partner is easy to install and easier still to maintain. We love it!”

— Gary Weaver, Associate Director of Student Aid, Brandeis College

PowerFAIDS Web Portals

Use the Internet to expand the reach of PowerFAIDS.

PowerFAIDS Net Partner

Would you like to provide your students with round-the-clock customer service? Net Partner is an online, self-service portal that keeps your students connected 24/7, 365 days a year. With Net Partner, you can customize the student interface, including all text and graphics, to reflect your institution’s branding.

The PowerFAIDS Web Client module enables staff to have online access to information on key student data in PowerFAIDS using a Web browser. By using the tool, you can enable your colleagues to review financial aid information themselves, reducing phone calls and walk-ins to your staff. With the Web Client, you will effectively extend service without additional software installation on other workstations.

“Gone is the days of waiting for paper applications and award acceptances, and having to store paper copies of student files. With PowerFAIDS Web Client, students and colleagues can review and download documents they need to complete the financial aid process, and more.”

— Ed Ciosek, Director of Financial Aid, Springfield College

Powerful Support

The College Board’s Institutional Need-Analysis Software (INAS) is the only product to offer PowerFAIDS® functionality, and it is also used by many campuswide systems. INAS provides fast, accurate and consistent need-analysis peak statistics for both Federal and Institutional Methodology. Additionally, PROFILE® is easily mapped to INAS for streamlined processing.

Integration helps you meet your awarding and enrollment objectives. Solutions integrate based on the progression of data in the financial aid life cycle.

We've Been There Since the Beginning

Today, many of the concepts and methodologies developed for the first time by the College Board’s College Scholarship Service (CSS®) and its members in 1954 are still being used to determine each family’s expected contribution toward college costs and each student’s need for financial aid.

As a result, the College Board remains a powerful force in the development of economically sound financial aid policy and a key resource on all college cost and financing issues.

1954: CSS develops the first national need-analysis methodology and form.
1975: CSS sponsors the first conference on Data Processing in Financial Aid.
1983: MICRO-FAIDS®, the precursor to PowerFAIDS®, is released.
1992: Institutional Methodology (IM) is introduced.
1995: CSS/Financial Aid PROFILE® is introduced as a stand-alone application for aid. Also this year, PowerFAIDS succeeds MICRO-FAIDS.
2001: IDOC is introduced.
2003: Net Partner for PowerFAIDS is introduced.
2005: Microsoft .NET version of PowerFAIDS is introduced.
2006: PROFILE becomes an online, adaptive application.
2008: Net Partner introduces the ability for students to accept and decline their awards online, eliminating the need for paper award letters.
2009: PROFILE goes global by adapting the application so it can be used by international students.

Backed by best-practice consulting and training, independent research, experienced field staff, and insights from nearly 4,000 College Board member institutions and advisory groups, our offerings provide you with more value and support than any other education organization.
